

GRANITE FALLS SCHOOL DISTRICT

BOARD OF DIRECTORS

POLICY 9300: EVALUATION OF THE BOARD

Just as performance evaluation is a management tool to assist individual staff members to examine and improve their work, so too is it a process for helping the Board to do its work more effectively. Each year prior to establishing the district's goals and objectives for the ensuing year, the Board shall evaluate its own performance.

The evaluation shall include a review of the accomplishment of prior goals and objectives as well as an assessment of the Board's work in terms of generally accepted principles of successful school board operations. Those principles shall relate to areas of Board operations such as Board meetings, relations with the Superintendent, staff relations, community relations and financial management.

The Superintendent shall recommend a performance evaluation system. It shall be reviewed by the Board at each annual performance evaluation meeting and revised if necessary to ensure the continued relevance of the evaluation process to the Board's work.

ADOPTED: MARCH 8, 1990

AMENDED: APRIL 27, 2000
