This form is to be completed following any incident involving physical contact to repel, restrain, move or otherwise safeguard students and/or staff. It is to be completed and signed by the primary staff person involved in the incident and signed by all involved. In the case of injury to any party, immediately contact administration.

- A. Whenever possible and practical, the use of force continuum will be followed. District staff shall only use the degree of force necessary to protect a student, students, or staff from imminent bodily injury, substantial bodily harm, or great bodily harm.
- B. The general accepted use of force continuum includes, in order:
 - 1. Staff presence;
 - 2. Verbal/non-verbal communications, de-escalation;
 - 3. Physical interventions;
 - 4. Other reasonable force as authorized by RCW9A.16.020
- C. Appropriate use of force:
 - a. Physical force may be used to prevent or minimize likelihood of serious harm to self or others, or if de-escalation interventions fail or are inappropriate to protect District property from significant property damage.
 - b. Consistent with the provisions found in WAC392-172A-03120, nothing in this policy and procedure precludes the use of reasonable force to control unpredicted spontaneous behavior by a student with an IEP or 504 plan, when the behavior poses a clear and present danger of serious harm to the student, to another person, or to property.
