

GRANITE FALLS SCHOOL DISTRICT

INSTRUCTION

POLICY 6081: LIBRARY MEDIA CENTER RESOURCES

Each school shall be provided with learning resource materials to meet the district's learning goals and objectives and the unique needs of the student and professional staff. The library media center will support and extend the classroom program for instruction by providing quality, quantity, and variety in the collection. Library media collections are defined as, but not limited to those organized collections of print and non-print materials such as, books, newspapers, periodicals, audio and video tape recordings, CD-ROM and laser video discs, study prints, and other materials that provide instructional value.

Print and non-print materials and other instructional equipment and materials will be catalogued in a manner that will enable such materials, equipment, and supplies to be accessible to students and teachers throughout the school year. Each library media center will be appropriately staffed to assist teachers and students in the use of the collection as well as in the production of teacher and/or student developed materials. Library media staff will assist students and teachers in securing materials from other sources.

The superintendent shall establish procedures for the selection, adoption, weeding, and reconsideration of library materials.
