"We Expect Success"

March 11, 2020

Good morning Granite Falls staff, students and families,

As you watched and listened to the press conference with state and county officials, the school district needs to anticipate schools in Snohomish County closing in the near future. As I write this I don't have any more information than you do but have the same questions. We are awaiting further guidance from the state and county and will share with you the information, expectations, and plans as it becomes available.

Thank you,

Dr. M
Superintendent

Our Mission: The Granite Falls School District is committed to the individual development of each student.
