Survey Results

An educational reform bill passed by the Washington State Legislature in 2010 required that school district seek feedback from parents and community members and summarize the responses in the annual performance reports. The survey was conducted in November 2015 and provided the following results: The District scored highest (based on a five point scale) in school safety, positive district image, positive district culture, and teacher-parent communication. The District scored average or below grade level in college and career readiness for students, communication with faculty, families, and the community, as well as engaging instruction in the classroom. Full survey results can be obtained by calling Melanie Freeman at 360.691.7717.

About Our School

Mountain Way is an inviting school where exceptional teachers and devoted parents work collaboratively to nurture children's development. Our school family includes a highly dedicated staff of over 60 adults and just over 400 students in Kindergarten, First and Second Grades. Our parents—who are an integral part of what we do here—are enthusiastically involved.

We focus on the development of the whole child. Students' social emotional development is just as important as their reading, writing and math skills. We run a rigorous program that challenges every student to be the best version of themselves. Student learning is enhanced through music, physical education, library and health. Student supports include a wonderful Special Services team, Title/Lap instruction in reading and math, and Washington Reading Corps.

Our Mission

Mountain Way Elementary provides a relationship-based learning community that is dedicated to developing the foundational skills young children need to become successful students and lifelong learners.

Our Learning Improvement Plan

The Learning Improvement Plan was developed by the Building Leadership Team in partnership with the principal and approved by the faculty. The plan focuses on three main goals: improve math achievement, improve reading achievement, and increase students social emotional skills. The plan is regularly monitored by the principal and Building Leadership Team. Copies of the School Improvement Plan are available from the principal.

Attendance

The average daily attendance for the 2014-15 school years through May was 94%.

State Test Scores (Grade 4)

In the spring of 2015, students took the new Smarter Balanced Assessment (SBA) which is aligned with the State Common Core Standards in English Language Arts (ELA) and math. Since the SBA is new and more rigorous than previous assessments, OSPI predicted state passing rates for ELA and math to be around 35%.

Condition and Use of Our Building

Mountain Way Elementary was built in 1989 and serves grades K-5. The school has 24 regular classrooms, one (two room) portable, music room, library, special education instructional rooms, and a gym/cafeteria for multi-purpose activities. Our building has undergone a number of recent upgrades, including new lighting, plumbing, food service equipment, carpeting and painting. Mountain Way Elementary is open for the public use including classes, youth activities, and community activities and meetings.

Report to the Community

The Elementary and Secondary Education Act (ESEA), also known as No Child Left Behind Legislation, requires schools to annually report on progress outlining specific information and include state assessment results.

The Office of Superintendent of Public Instruction (OSPI) has compiled all the data required by the ESEA law including schools identified for improvement. Information on the Granite Falls School District can be found at <http://reportcard.ospi.k12.wa.us/>

If you cannot access the report online, contact Melanie Freeman at 360-691-7717, for a hard copy.
